S.2085 - Medicare Multi-Cancer Early Detection Screening Coverage Act

To Senator Sherrod Brown -

Thank you for your support of the S.2085 - Medicare Multi-Cancer Early Detection Screening Coverage Act.

Our organizations serve older Ohioans as well as people and families who are living with a cancer diagnosis.

We also advocate for medical innovation including advanced screening tools that can provide early detection and testing for cancer. When cancer is caught early, patients experience better health outcomes.

This year, the MCEd legislation is closer than ever to passage, we urge you and your colleagues to get this critical health legislation over the finish line. We stand ready assist you achieve passage of MCEd in 2024.

Thank you!

October, 2024
